

All Saints Catholic Academy's Peanut/Tree Nut Free Approved 2017-18 Snack List

We ask that your choices for snacks provide nutrition and energy wherever possible. No peanuts/tree nuts or foods containing peanuts/tree nuts are to be sent to school because of life-threatening food allergies.

The Food Allergen Labeling and Consumer Protection Act (FALCPA) of 2004 requires food manufacturers to label food products that contain an ingredient that is or contains protein from a major food allergen in one of two ways.

The first option for food manufacturers is to include the name of the food source in parenthesis following the common or usual name of the major food allergen in the list of ingredients in instances when the name of the food source of the major allergen does not appear elsewhere in the ingredient statement.

The second option is to place the word "Contains" followed by the name of the food source from which the major food allergen is derived, immediately after or adjacent to the list of ingredients, in type size that is no smaller than the type size used for the list of ingredients.

Cross-contact is the inadvertent introduction of an allergen into a product. It is generally the result of environmental exposure during processing or handling, which may occur when multiple foods are produced in the same facility. It may occur due to use of the same processing line, through the misuse of rework, as the result of ineffective cleaning, or from the generation of dust or aerosols containing an allergen.

Please do not purchase items for snacks at school that have allergy and ingredient alert such as:

“May Contain Peanut or Tree Nuts”

“Processed on shared equipment with Peanuts or Tree Nuts”

“Manufactured in a plant with Peanut or Tree Nuts”

“Contains Peanut or Tree Nut Ingredients”

NO EXCEPTIONS PLEASE

The approved snack list follows
