

MORPHING VIDEO PICTURE SUBMISSION INSTRUCTIONS

Hello 8th Grade Families, it is time to start creating the annual graduation morphing video of our graduating class. It is presented at the graduation dinner and is a very touching, beautiful and emotional tribute to all families by watching our kids' transformation over the years. We need your help to provide the first four photos of your child's life as soon as possible. This is a very time intensive project.

PLEASE TURN IN YOUR CHILD'S PICTURES as soon as possible but no later than Friday, DECEMBER 17th.

The following photos requested below are suggestions. If you don't have the exact timing requested still please provide four (4) pictures showing their growth progression from infancy. Remember the goal of the video is to show how your child has grown through the years:

Photo 1: Newborn photo or from first year

Photo 2: Toddler

Photo 3: Kindergarten or 1st grade

Photo 4: 4th or 5th grade

Photo 5: We will use the 8th grade photo taken in their graduation gown. You do not need to supply this one.

Some helpful hints:

- Photo should clearly show your child's face. The full head must be shown. Do not have part of their head or hair cut off. Portrait shots work best. Head must be facing forward so both eyes and cheeks are visible. Eyes should be open.
- Your child's head should not take up more than 75% of the photo.
- Another person can be in the photo if they are next to your child, as long as your child's entire head is shown. The other person's face will not appear in the video.
- Please only use color photos.

Submission Process:

Digital Photos:

- Email ONE photo per email to classof2022@ascacademy.org. If you include multiple photos in one email, they may be compressed and the quality could be lost.
- Include your child's name and either their age in the photo or a number to indicate the order of the photos in the subject of the email. Send them at the largest size (highest resolution) possible.

For Printed photos:

- Use at least 4X6" photos for best resolution
- If you scan at home, be sure the resolution is at least 200dpi. Then email as suggested above.
- You can send the printed photos along with a Morphing Photo Submission Form to the All Saints office labeled Morphing Pictures NEED SCANNING. The office staff will assist by scanning them to a file. All photos will be returned.

Thank you in advance for your timely cooperation. If you have questions please contact Katy Maurer at classof2022@ascacademy.org.
